

SANDRA

Radio Communications
Intelligence Solution

SANDRA from Combitech is a COMINT software suite that monitors radio communication and provides critical intelligence information to support decision making. SANDRA enables operators to monitor radio frequencies and capture important radio signals remotely across large geographical areas.

Benefits

Improves situational awareness

Captures, processes and geolocates transmissions.

Focus on essential information

Automated tasking function handles the routine tasks and allows operators to focus on essential information.

Provides data for intelligence

Collects data for long-term analysis to reveal information about adversaries intent.

Features

Provides radio signal acquisition, processing & reporting

Delivers direction finding & geolocation

Controls multiple sensor sites remotely

Monitors thousands of simultaneous channels

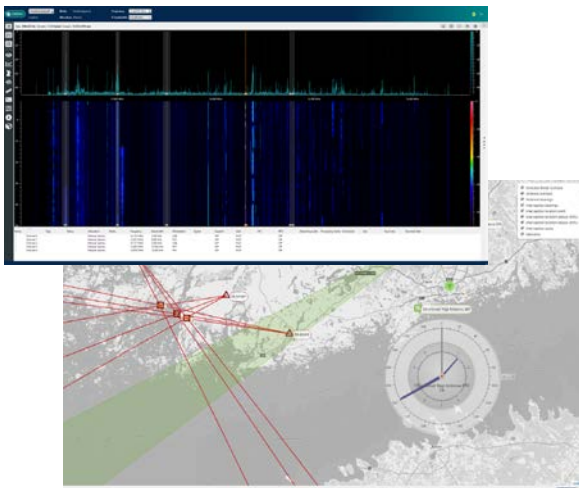

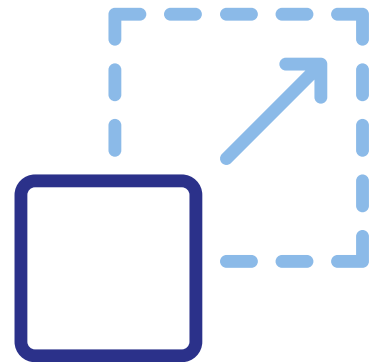

SANDRA from Combitech

Smooth-running communications monitoring

Easy scalability and cost-effective

Offers the best value for your investment!

- From one sensor to nationwide coverage with one solution
- Scalable from a single laptop to numerous remote sensor sites
- Tens of concurrent operators and ability for autonomous operations
- Built-in support for various roles to allow operators to focus on essential information
- Foresee and prevent threatening scenarios

Easy to install & quick to deploy

Get your operations running in no time!

- Extensive and straightforward integration and API into existing hardware infrastructure, systems and subsystems.
- Intuitive user interface and robust user experience speeds up training and makes deployment easy.
- Modern software architecture and automated functions speed up operator workflow and requires less personnel to operate.

The ultimate Combitech offering

Combine our solutions together

CORALINE

Solution that enables cost efficient use of SDRs in COMINT operations.

SANDRA

Radio Communications Monitoring solution enables your operations to capture the important communication.

SAGA

Digital Signal Recorder solution enables your operations to record and process important communication.

SEARCH & IDENTIFY

Trust & understanding

Combitech has a close relationship with the armed forces and the defence sector in the Nordic region. It's a relationship built on a mutual understanding of the importance of high security and confidentiality. Over many years we have built up experience, knowledge, and an understanding of the industry requirements imposed in terms of technical performance, safety, and budgets.

Nordic partner

Combitech is a Nordic tech solution and consulting partner based in Sweden, Finland, and Norway. We are developing, integrating, and supporting missioncritical systems for defence domain customers and industry partners. Combitech is an independent part of the defence and security group Saab AB.
